FIRECHIEF® 500ML LITH-EX EXTINGUISHER

MODEL: FLE500

A lithium-ion battery fire may result from physical damage that causes a short circuit, overcharging or by increased external temperature.

The Firechief® 500ml Lith-Ex Extinguisher has been completely redesigned to improve the discharge rate and range whilst reducing the quantity of plastic required to make the dispensing head which incorporates the valve, nozzle and trigger.

The new and improved product delivers enhanced targeting from its more focused discharge and this next generation product is fully recyclable.
